Resolução do raio x - MAT7_08NUM03

a) $\left(-\dfrac{2}{6}\right) : \dfrac{12}{24} = \left(-\dfrac{2}{6}\right) \cdot \dfrac{24}{12} = -\dfrac{48}{72} = -\dfrac{2}{3}$

b) $\dfrac{3}{5} : \dfrac{25}{15} = \dfrac{3}{5} \cdot \dfrac{15}{25} = \dfrac{45}{125} = \dfrac{9}{25}$

c) $\left(-\dfrac{6}{9}\right) : \left(-\dfrac{16}{32}\right) = \left(-\dfrac{6}{9}\right) \cdot \left(-\dfrac{32}{16}\right) = +\dfrac{192}{144} = \dfrac{4}{3}$
