

## Baralhos para o jogo

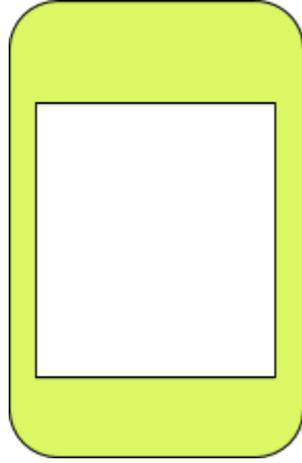

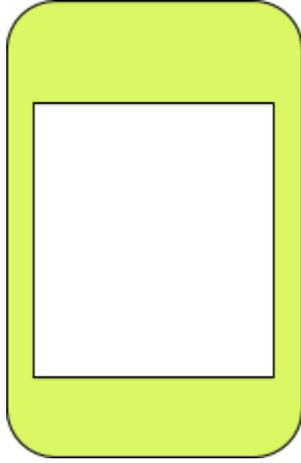

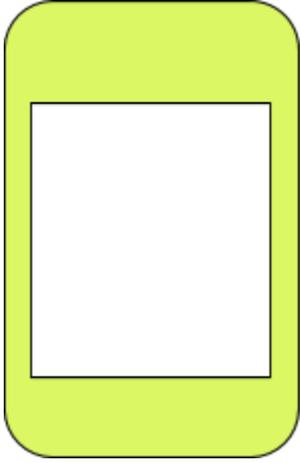

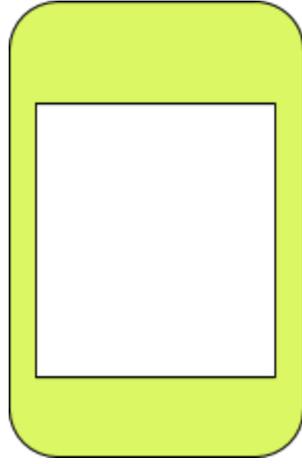

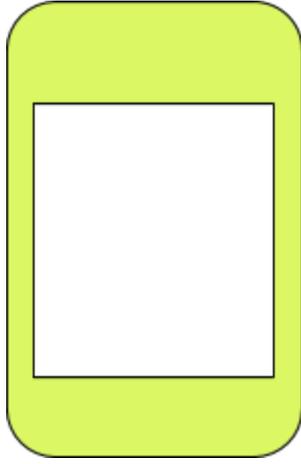

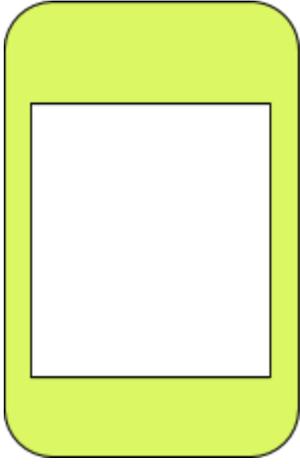

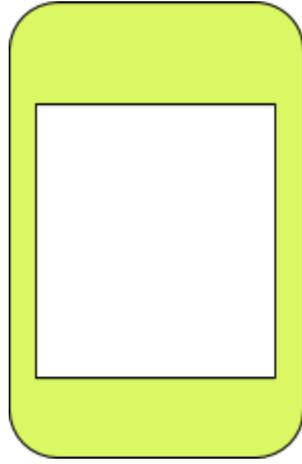

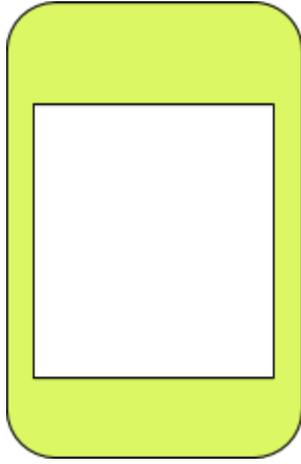

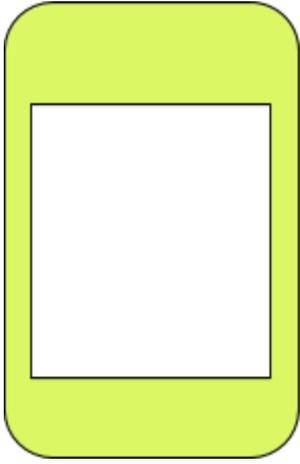

Instrução para a impressão:

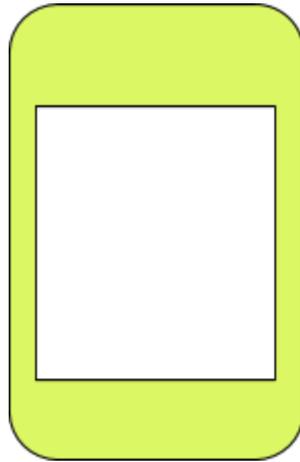

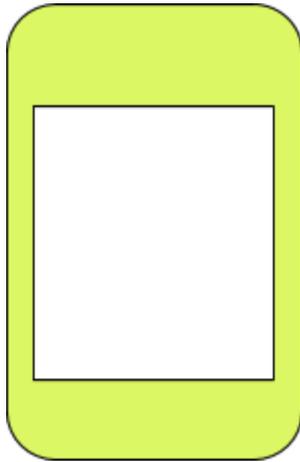

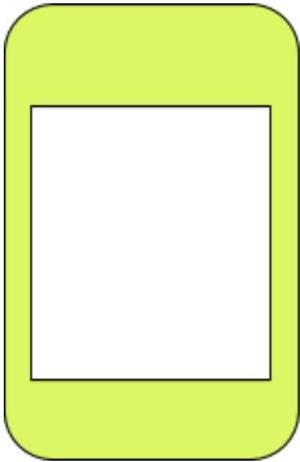

1 - Para que o manuseio do baralho não fique prejudicado, faça a impressão em um papel que tenha uma gramatura maior do que a folha de sulfite, para que o baralho fique firme.

2- Nesse arquivo você encontra tanto a carta como o seu verso, com as cores diferentes para cada baralho. Por isso você deve colar estas duas partes na construção do baralho.
