"The thing I love most about working in a zoo is that every day is completely different and I get to work with some of the most beautiful animals on this planet."

"I started to learn a bit more about the animals that I look after now. Tragically a lot of them are in serious need of some help."

"One of my favorite things about working with the kiwi chicks here is knowing that every little bit helps."

"So, this is actually release number 299 for the zoo."

"It's really special to be able to share that with people. It's a great chance for us to be able to really inspire people to love animals, get to know animals"

"The real enjoyment is seeing what they get out of it. Oh! Squirrel monkeys."

"All wildlife is equal. All wildlife is important."

"I'm hoping that the public will fall in love with them like I have."

"That's why I became a vet. That's why I love working here."

"Trying to empower the next generations to be part of that solution."

"Securing a future for wildlife."

"And do that with a great bunch of people. It's fantastic."
