

PART 1- TED SUMMARY

Complete with the missing words:

future - friends- success- knowledge - creates - apps- games - parents

This Ted presentation is about Thomas Suarez, a 12 year old boy, who _____ Apps, including an App Club at school. He was encouraged by _____ and _____. Nowadays, his club members are working on _____ which could be put on iPads. If they have _____ all the money will go into local educational foundations. For his _____, he intends to create more apps, more _____, to get into Android programming and development, and to continue my app club, and find other ways for students to share _____ with others.

Answer Key = *creates - parent - friends- apps- success- future- games- knowledge*

PART 2 - OUR CREATION

Imagine you decide to present a school club proposal to teachers, colleagues, coordinators and so on. Tell them what the club is about and what it is for. Use your imagination.

Follow the steps:

1. Choose one club below that you think can be very interesting for the students:

() Dance Club

() Drama Club

() Study Club

() Robotics

() Sports Club

() Science Club

() Games Club

() Math Club

() Tech Club

() Recycling club

() Reading Club

() Chess Club

Other: _____

2. Describe your club activities in a very objective way. Change the information in italics to your own. Example:

Our *Dance Club* will study *different kinds of dance through Internet research*, we will *invite dance teachers to practice* and we *intend to make a show in the end of the year to our community*.

Remember: It's not necessary to hand in!
