

- What did you think about [Anne Frank's diary fragment](#) (from Saturday, June 20, 1942)?

In this fragment, she talks about her life in general but **in a diary people usually talk about a specific day at a time**. For example, if you were writing in your diary today, you would include **what you did today and how the things you did today made you feel**.

- Tell your classmate what you would write in your diary today if you had one.
