

★ My hair ★

I like my hair its long, black and wavy. If you look real close you can see red streaks. It comes from my mexican heritage. Its wavy like the ocean

I like my feet because I painted the toe nails and because I cut them not too short and not too long!

Mosquitoes like my legs (Blood) I take after my Dad because they like his blood. I have long legs. I picked to put my feet on leaves because I like to play and I couldn't run and play without them.

Signature : Maetha Benton

The best part of me

These are the attributes of my special part:

What makes this part of me special?

Where did this special part come from?
