

Fichas sobrepostas

Regras:

1. As fichas de cada ordem (centena de milhar, dezena de milhar, unidade de milhar, centena, dezena e unidade) deverão ser embaralhadas e colocadas no centro do grupo formando seis montes com as faces viradas para baixo.
2. A cada rodada, os jogadores do grupo pegam, individualmente, seis fichas aleatórias: uma de cada ordem (centena de milhar, dezena de milhar, unidade de milhar, centena, dezena e unidade).
3. O professor dá o comando e os alunos devem formar um número com suas fichas, usando uma, duas, três, quatro, cinco ou seis fichas.
4. Ganha um ponto o jogador do grupo que conseguir atender ao comando do professor.

Por exemplo: Se o jogador tem as cartas 100 000, 90 000, 3 000, 000, 60 e 8 e o comando da rodada foi formar o maior número possível. Nesse caso, o aluno pode formar o número 193 068 e ganhará ponto se ninguém do grupo conseguir formar outro maior que este. Mas se o comando for compor o menor número possível, este jogador pode utilizar apenas a ficha com o número 8 e verificar se é o menor número obtido no grupo.

5. Depois disso as fichas são novamente embaralhadas e ocorre uma nova escolha de seis fichas para cada jogador, para assim iniciar a nova rodada.
 6. Ganha o jogo aquele que ao final de 10 rodadas tiver o maior número de pontos.
-

Impressão por grupo, caso o professor necessite. Também é interessante que cada aluno possua o seu jogo de fichas sobrepostas.
