**Vídeo/Áudio:** Mystery Skype Connecting Classrooms Around The World

**Link:** [https://www.youtube.com/watch?v=eRf7\\_nX74PA](https://www.youtube.com/watch?v=eRf7_nX74PA)

**Transcrição:**

**Kids:** Hi!

---

**Teacher:** In my classroom, I'll grasp onto any technology that can expand the kids possibilities.

---

**Teacher in class:** Creator, come on up!

---

**Teacher:** Learning comes from a teacher that's willing to take a risk and do something new and bring in these powerful tools.

---

**Student:** Hi! Welcome to Mystery Skype.

---

**Teacher:** One of the key tools we're using right now is Skype to connect with other classrooms. It's so powerful to connect them beyond these four walls...

---

**Students:** Are you in United States?

---

**Teacher:** Mystery Skype is a chance for the kids to connect with other students around the world.

---

**Students 1:** Are you in the East of Mississippi?

**Students 2:** No!

---

**Teacher 1:** It's a challenging game for them. They have to critically think.

**Teacher 2:** It helps the kids understand other cultures and other countries.

---

**Students 1:** Are you in the U.S.?

**Students 2:** No, we're not.

**Students 1:** Are you somewhere in Mexico?

**Students 2:** Yes!

---

**Teacher:** It's a powerful tool to see kids learning from each other.

---

**Teacher in class:** Hey, Matteo, come on over, bring those maps!

---

**Teacher:** To see their critical thinking process is far better than any test I can give.

---

**Student 1:** Because of Mr. Bedley learning seems to be really fun, it's more like a game instead of the teacher telling you 'this is what we're going to be doing'.

**Student 2:** It's a team effort to really win Mystery Skype.

---

**Students 1:** Do the Rocky Mountains run through your state?

**Students 2:** No!

---

**Teacher:** I mean, really it takes a team to do anything in life and this is a chance for them to experience that collaboration.

---

**Students 1:** Are you in Baja California?

**Students 2:** No!

---

**Teacher:** You can see those light bulbs going off and just that connection that

they're making... how better to do that than to actually connect with other kids all over the world?

---

**Students 1:** Do you have dry weather?

**Students 2:** Yes, we do have dry weather!

---

**Teacher:** Technology empowers our class to be enabled to learn beyond our four walls. I'm just a passionate educator who wants to make an impact for kids. I'll take risks to try to expand their learning beyond what they could have ever imagined.

---

**Students 1:** Are you in Mexico City?

**Students 2:** Yes, we are!
